

CAROL J. BENASSI, NCARB, AIA
SENIOR MANAGING CONSULTANT

cjbenassi@engsys.com

Ms. Carol J. Benassi, NCARB, AIA, is an architect with experience in both design and construction. Her expertise spans the complete project life cycle and includes experience in initial conception, design and engineering, construction, and post-completion performance evaluation. She specializes in forensic architecture, providing expert consulting to attorneys in construction disputes and construction defect matters, as well as owners/insurance adjusters in matters related to property loss claims arising from natural or man-made events.

Ms. Benassi utilizes her expertise in building design, codes and standards, accessibility requirements, and construction means and methods to evaluate the performance of existing buildings. Ms. Benassi evaluates the work of architects and builders for conformance with the applicable standard of care.

November 2017

Professional Associations and Affiliations

American Institute of Architects (AIA)
Supplemental Examination Commissioner, California Architects Board

Previous Experience

Following her formal education, Ms. Benassi owned and operated an architecture company and a construction company, thereby gaining experience in both the practice of architecture and the means and methods of construction. As the owner of C Benassi Architecture, Inc. and Birch Construction, both Utah-based companies started in 1984, Ms. Benassi developed expertise in the full range of management skills required to successfully operate a medium-sized company.

Upon relocating to Southern California in the early 1990s, Ms. Benassi initially worked for an architecture firm. In the late 1990s, she entered the realm of forensic architecture, first with a San Diego firm and later as a construction defect claims expert for CNA Insurance Company. In the early 2000s, Ms. Benassi started a forensic architecture consulting business in Orange County and in 2006, formed Coast Consulting, LLC as a 50-percent owner. In 2010, she joined Thornton Tomasetti as a vice president where she continued to specialize in forensic architecture matters both domestically and internationally.
