

As a Consultant in the Transportation practice, Mr. Jordan is involved in investigating accidents and incidents within the Aviation and Marine Industries.

Prior to joining ESI, Mr. Jordan was immersed in Atlanta, Georgia's busy General Aviation community. Maintaining a dual role as a Maintenance Test Pilot and Maintenance Manager for one of the busiest aircraft maintenance departments in the country, this led to Mr. Jordan working directly for Cirrus Aircraft Design as a Field Support Representative.

As an Airframe & Powerplant (A&P) mechanic with an Inspectors Authorization (IA), along with having his Single & Multi-Engine Land Commercial Pilot Licence (CPL), Mr. Jordan has participated in the maintenance and piloting of many industry leaders such as: Beechcraft, Cessna, Cirrus, Cub Crafters, Diamond, Eclipse, Gipps Aero, Lockheed Martin, Maule, Mooney, Piper, Pilatus, Socata, Continental Aerospace Technologies, Lycoming Engines, Pratt & Whitney Canada (PT6), Pratt & Whitney (V2500), Williams International (FJ33) and many more.

With over 30 different aircraft models flown, 250+ successful maintenance test flights, and more than 20 years in aircraft maintenance, Mr. Jordan has many...

Areas of Specialization

- Aircraft Maintenance
- Inspection of Aircraft, Engines, Components/Accessories, & Maintenance Records
- Engine Ground Operations
- Flight Testing
- Fuel System Set-up
- In-Flight Engine Operation
- Maintenance Management
- System Analysis & Troubleshooting
- Accident Investigation
- Accident Reconstruction

Positions Held

- **Engineering Systems Inc. (ESi), Remote**
Senior Staff Consultant, 2024 – Present
- **Cirrus Aircraft, Remote**
Field Support Representative, 2022 – 2024
- **Epps Aviation, Atlanta, GA**
A&P Mechanic, Maintenance Manager & Test Pilot, 2006 – 2022
- **Mokulele Airlines, Kailua-Kona, HI**
A&P Mechanic, 2006
- **Lockheed Martin, Marietta, GA**
Airframe Senior Assembly Technician, 2005
- **Aviation Network Services (Delta Airlines), Atlanta, GA**
Airframe & Powerplant Mechanic, 2005
- **Pratt & Whitney, Columbus, GA**
A&P Mechanic & Test Cell Operator, 2004-2005

Continuing Education

- US DOT Transportation Safety Institute (TSI) – Aircraft Accident Investigation Training Course
- Continental Aerospace Technologies – Aviation Technician Factory Training Course
- Hartzell Propeller – Aircraft Propeller Accident Investigation Course
- Cirrus Aircraft – SF50 Maintenance
- Williams International – FJ33-5A Full Line Maintenance Training
- Flight Training – CFII Landon “Doc” Harkins
- FlightSafety – Leadership Elements for Flight Department Professionals
- FlightSafety – Aviation Management
- Bakers School of Aeronautics - Inspection Authorization
- NBAA – Professional Development Program
- Global Jet – Aviation Interpersonal Maintenance Management
- FlightSafety – Pratt & Whitney PT-6 Maintenance
- Pratt & Whitney – Pratt & Whitney V2500 Overhaul
- Cirrus Aircraft – Cirrus Aircraft Maintenance Excellence
- Cirrus Aircraft – Composite Repair
- Eclipse / Global Jet – Eclipse 500 Jet Maintenance
- Piper / Simcom – Piper Aircraft Maintenance
- Aviation Institute of Maintenance – Airframe & Powerplant

Professional Affiliations

- International Society of Air Safety Investigators (ISASI)
