

**NOEL R. FLORES, Ph.D., P.E.**

**SENIOR CONSULTANT**

[nrflores@engsys.com](mailto:nrflores@engsys.com)

Dr. Noel Flores is a Senior Consultant with Engineering Systems Inc. (ESi). He has expertise in structural engineering, applied mechanics, and construction materials including wood, masonry, mass timber, steel, and reinforced concrete.

Dr. Flores performs scientific investigations related to construction defects, failure of structural elements and components, and failure of components within building envelopes. Dr. Flores also specializes in damage assessment, repair and rehabilitation design of damaged structures, structural analysis and design, and building code research and analysis. Dr. Flores has worked across several sectors including residential structures, commercial structures, large-scale heavy civil infrastructure, and military structures. Dr. Flores also works on matters involving code compliance and accidents and incidents in the built environment.

Dr. Flores has experience in the design and implementation of experimental test programs including the development of test designs and custom test fixtures, instrumentation including digital image correlation, data acquisition, and testing. An additional area of specialty includes the mechanics of structures under impact where Dr. Flores has utilized experimental methods, finite element analysis, and other numerical methods to simulate impulsive, blast-like loading on structural materials.

Prior to joining ESi, Dr. Flores conducted research including numerical modeling and experimental testing related to blast effects on cross-laminated timber (CLT) with the Stewart Research Group at Georgia Tech. Additionally, Dr. Flores has performed structural engineering for large scale heavy civil projects including repair design for the Rondout West Branch Tunnel Bypass and City Tunnel No. 3 in New York City, and canal infrastructure, spillways and gates, and seawalls in South Florida.

Dr. Flores is fluent in Spanish.

### **Areas of Specialization**

Applied Mechanics

Building Envelope Assessment

Building Code Research and Analysis

Cross-Laminated Timber and Mass Timber

Construction Defects

Damage Assessment

Failure Analysis

Heavy Civil Infrastructure

Mechanical Testing

Repair and Rehabilitation Design

Shock and Impact

Structural Analysis and Design

Structural Condition Assessment

Wood Materials

## **Education**

Ph.D., Structural Engineering, Mechanics, and Materials, Georgia Institute of Technology  
M.S., Structural Engineering, Mechanics, and Materials, Georgia Institute of Technology  
B.S., Civil Engineering, Columbia University  
B.A., Mathematics and Italian Studies Double Major, Wesleyan University

## **Certifications**

National Floor Safety Institute Walkway Auditor Certificate Holder  
Sunbelt MEWP Boom/Scissor Operator Certification

## **Licensed Professional Engineer (P.E.)**

State of Georgia ..... License No. PE043963  
State of Alabama ..... License No. PE53104  
State of Minnesota ..... License No. PE62260

## **Continuing Education**

Wood Anatomy Course (SBP 6013), Mississippi State University, Spring 2024  
OSHA 30-Hour Construction Course  
OSHA 10-Hour Construction Safety and Health Course  
Envision Sustainability Professional (ENV SP)

## **Positions Held**

### **Engineering Systems Inc. (ESi), Peachtree Corners, Georgia**

Senior Consultant, 2025 - Present  
Team Lead, 2025 - Present  
Senior Staff Consultant, 2022 – 2024

### **R.J. Behar and Company, Inc., Fort Lauderdale, Florida**

Structural Engineer, 2015 - 2017

### **Department of Environmental Protection, New York, New York**

Structural Engineer, 2012 – 2015

## **Teaching and Research**

### **Georgia Institute of Technology**

**Graduate Research Assistant**, 2018 – 2022

Structural Engineering and Mechanics of Materials Laboratory

**Instructor**, Fall 2021

ARCH 8833 – Integrated Building Systems

## Professional Affiliations/Honors

### **American Society of Civil Engineers (ASCE)**

Member

### **Structural Engineering Institute**

Member

### **American National Standards Institute (ANSI)**

Member of ANSI A14.4 Subcommittee on Safety Requirements for Job-Made Wooden Ladders
