

D. Lee Campbell

RN, BSN, CLNC

Forensic Nurse, Certified Legal Nurse Consultant

Lee Campbell is a Forensic Nurse with Engineering Systems Inc. (ESi). Her nursing background includes pediatrics and forensics. She has completed forensic nursing, sexual assault nurse examiner (SANE), and legal nurse consulting (LNC) certifications.

Prior to joining ESi, she worked for a law firm for nine years as a legal nurse consultant, including toxic tort/environmental (asbestos), personal injury, general/professional negligence, medical/legal malpractice, and product liability. She has extensive experience in analyzing and investigating medical records, legal documents, government reports, FAA/DOT medical certificate records, and investigative records.

Ms. Campbell specializes in creating medical summaries that outline critical information such as pertinent past medical history, pre-existing conditions, prior injuries, current medical history, physical injuries, diagnoses, lifestyle factors, medications, subjective evidence, and missing medical records. She also prepares injury diagrams and assists in the development of medical-legal exhibits for use as demonstrative evidence in trial.
